

Guidelines for Parking at Littlewick Green

Parking at the copse at Littlewick Green is limited and should therefore be used considerately to make best use of the spaces available for the people who need to use them. These spaces are not intended to be used for overnight or long-term parking as it restricts availability for events at Gilchrist Hall and other activities around the green. Commercial vehicles and vans should not be parked here.

Guidelines we would ask you to follow include:

- Please do not leave vehicles parked overnight. The parking spaces should be empty each morning to allow full availability for use each day.
- Please avoid driving or parking on grass areas in wet weather. Even two wheels driven across the grass can leave deep muddy ruts which have to be repaired.
- Please ensure that vehicles are not parked so that they overhang a road or access drives.
- Please avoid parking opposite residents' drives as it may block their access
